EDUCATION

Akademia Finansów i Biznesu Vistula

Bachelor's Degree in Computer Science

Warsaw

Oct. 2023 – Feb. 2027

EXPERIENCE

Junior Web Developer

Vistula University (Akademia Finansów i Biznesu Vistula)

Jun. 2025 - Present

Warsaw, Poland

- Managed and maintained 3 WordPress websites, ensuring regular updates of themes, content, and overall site functionality.
- Developed and optimized responsive landing pages utilizing HTML, CSS, and JavaScript.
- Designed and coded HTML email templates, and executed targeted mailing campaigns using GetResponse.
- Leveraged basic PHP to customize WordPress environments and implement necessary modifications.
- Troubleshoot and resolved reported website bugs, actively testing solutions and reviewing logs to ensure optimal performance.

PROJECTS

PewnyStrzał | *Next.js, React, TypeScript, Tailwind CSS, Supabase*

Mar. 2026 – Present

- Developed a comprehensive full-stack web application designed to help users prepare for Polish firearms license exams.
- Built dynamic learning modules including mock exams, targeted question bases, and rapid-fire timed reviews tailored to specific license categories.
- Integrated a personalized user dashboard featuring interactive charts to track exam trends, calculate readiness scores, and highlight frequent mistakes.
- Leveraged Supabase for secure user authentication and architected a PostgreSQL database to store a comprehensive, categorized bank of exam questions alongside user progression metrics and answer history.
- Designed a fully responsive, modern user interface utilizing Next.js and Tailwind CSS for optimal cross-device accessibility.
- Integrated Google Analytics to monitor user traffic and behavior, and ran Google Ads campaigns to drive targeted user acquisition.
